## ใบงานที่ 12

# เรื่อง DML และ DDL

วัตถุประสงค์ 1. เพื่อให้นักศึกษาฝึกใช้งาน MySQL และ phpMyAdmin

2. เพื่อให้นักศึกษาฝึกคันหาข้อมูลจากฐานข้อมูล

### เนื้อหา

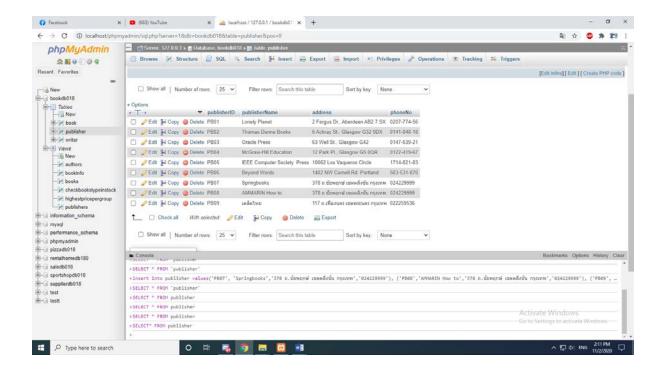

• บทที่ 7 SQL

### คำสั่ง

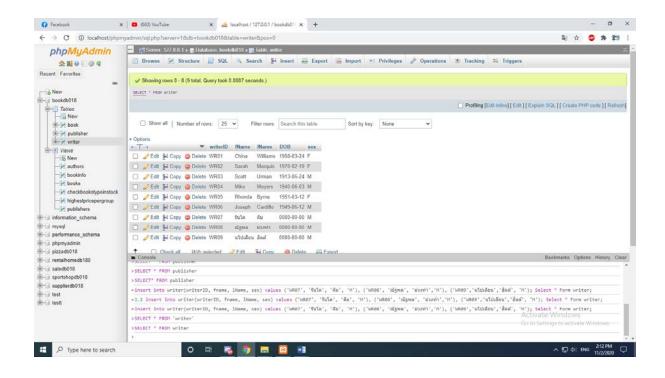

- 1. จงเปิด Database ชื่อ BookDBxxx (โดย xxx คือ รหัสนักศึกษา 3 ตัวท้าย)
- 2. จงพิมพ์คำสั่ง SQL ดังต่อไปนี้ แล้ว Capture หน้าจอผลลัพธ์ มาแทรกลงในพื้นที่ว่างด้านล่าง
  - 2.1 insert into publisher

values('PB07', 'Springbooks','378 ถ.ชัยพฤกษ์ เขตตลิ่งชัน กรุงเทพ','024229999'), ('PB08','AMMARIN How to','378 ถ.ชัยพฤกษ์ เขตตลิ่งชัน กรุงเทพ','024229999'), ('PB09', 'เคล็ดไทย', '117 ถ.เพื่องนคร เขตพระนคร กรุงเทพ', '022259536'); Select \*

Form publisher;

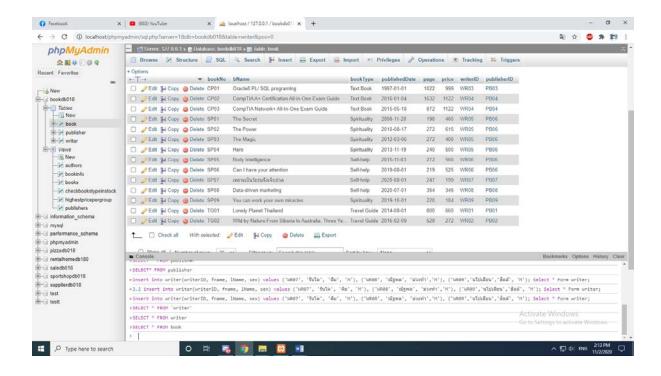

2.2 insert into writer(writerID, fname, IName, sex) values ('WR07', 'รันโด', 'คิม', 'M'), ('WR08', 'ณัฐพล', 'ม่วงทำ','M'), ('WR09','นโปเลียน','ฮิลล์', 'M');
Select \*
Form writer;

#### 2.3 insert into Book

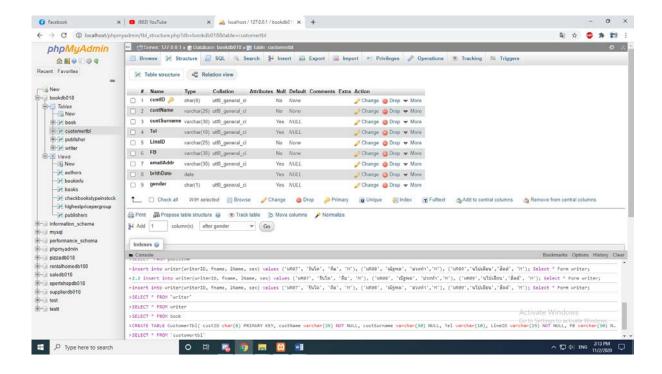

values ('SP07', 'เพราะเป็นวัยรุ่นจึงเจ็บปวด', 'Self-help', '2020-08-01', 247, 199, 'WR07', 'PB07'), ('SP08', 'Data-driven marketing', 'Self-help', '2020-07-01', 354, 345, 'WR08','PB08'), ('SP09','You can work your own miracles', 'Spirituality', '2019-10-01', 220, 184,'WR09','PB09'); Select \*

Form book;

#### 2.4 CREATE TABLE CustomerTbl(

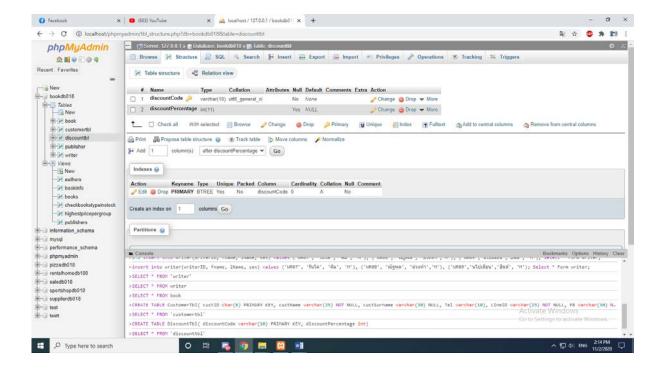

custID char(8) PRIMARY KEY, NOT NULL, custName varchar(25) custSurname NULL, varchar(30) Tel varchar(10), LineID varchar(25) NOT NULL, FΒ varchar(30) NOT NULL. emailAddr varchar(30), brithDate Date, gender char(1));

#### 2.5 CREATE TABLE DiscountTbl(

discountCode varchar(10) PRIMARY KEY,

discountPercentage int);

#### 2.6 CREATETABLE OrderTbl(

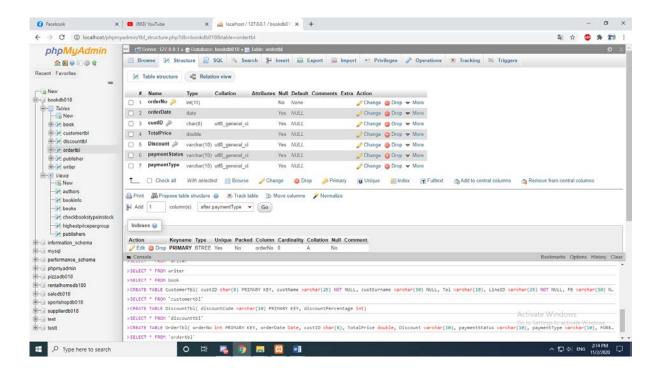

paymentType

orderNo int PRIMARY KEY,
orderDate Date,
custID char(8),
TotalPrice double,
Discount varchar(10),
paymentStatus varchar(10),

varchar(10),

FOREIGN KEY(custID) REFERENCES CustomerTbl(custID),

FOREIGN KEY(Discount) REFERENCES DiscountTbl(discountCode));

#### 2.7 CREATETABLE ItemListTbl(

itemNo int PRIMARY KEY,

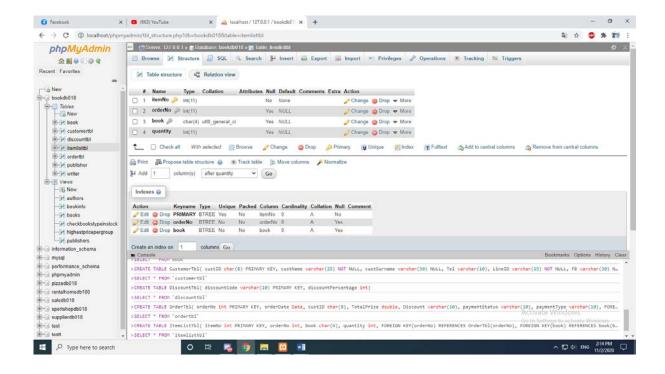

orderNo int,

book char(4),

quantity int,

FOREIGN KEY(orderNo) REFERENCES OrderTbl(orderNo),

FOREIGN KEY(book) REFERENCES book(bookNo));

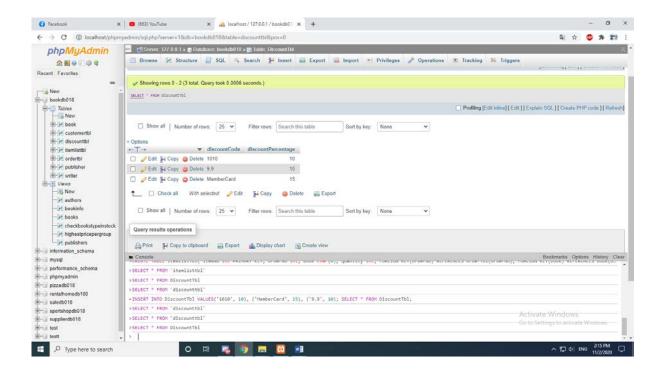

#### 2.8 INSERT INTO DiscountTbl

VALUES('1010', 10), ('MemberCard', 15), ('9.9', 10);

#### SELECT \*

FROM DiscountTbl:

#### 2.9 INSERT INTO CustomerTbl

VALUES ('ABC12341', 'นฤภัทร', 'สำราญใจ', '0868667014', 'NaRu', 'NaRuPat', 'narupat.s@gmail.com', '1997-3-16','M'),

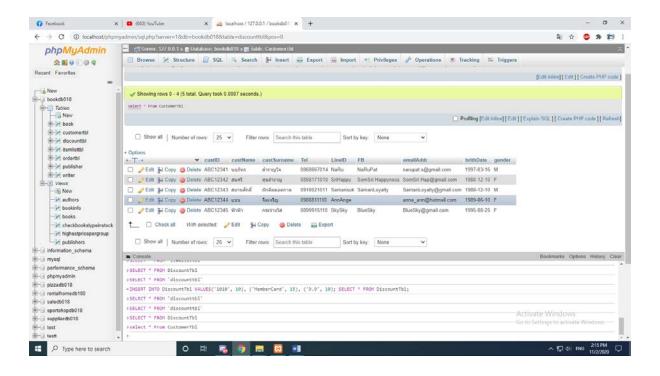

('ABC12342', 'ส ม ศ รี ', 'สุ ข สำ ร า ญ ', '0898171010', 'SriHappy', 'SomSri Happyness', 'SomSri.Hap@gmail.com', '1988-12-10','F'),

('ABC12343', 'สมานศักดิ์', 'ภักดีตลอดกาล', '0918021011', 'Samansuk', 'SamanLoyalty', 'SamanLoyalty@gmail.com', '1988-12-10','M'),

('ABC12344', 'แนน', 'จิตเจริญ', '0988811110', 'AnnAnge', ", 'anna\_ann@hotmail.com', '1989-6-10','F'), ('ABC12345', 'ฟ้าฟ้า', 'กระจ่างใส', '0899915110', 'SkySky', 'BlueSky', 'BlueSky@gmail.com', '1995-8-25'.'F'):

select \*

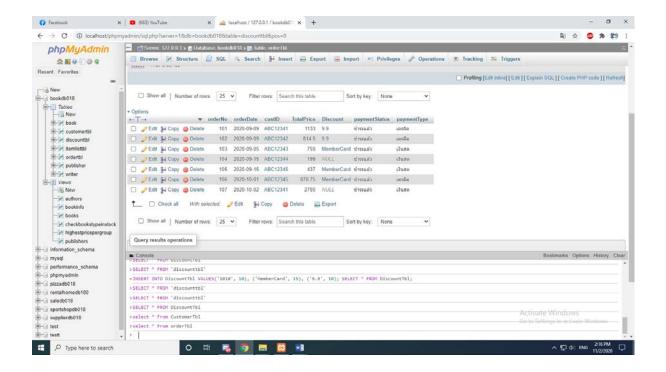

From CustomerTbl;

#### 2.10 INSERT INTO ordertbl

VALUES (101,'2020-09-09','ABC12341',1133,'9.9','ชำระแล้ว','เครดิต'), (102,'2020-09-09','ABC12342',814.5,'9.9','ชำระแล้ว','เครดิต'), (103,'2020-09-05','ABC12343',759,'MemberCard', 'ชำระแล้ว','เงินสด'), (105,'2020-09-15','ABC12345',437,'MemberCard', 'ชำระแล้ว','เงินสด'), (106,'2020-10-01','ABC12345',878.75,'MemberCard', 'ชำระแล้ว','เครดิต'); INSERT INTO ordertbl(orderNo, orderDate, custID, TotalPrice, paymentStatus, paymentType) VALUES(104,'2020-09-15','ABC12344',199, 'ชำระแล้ว','เงินสด'), (107,'2020-10-02','ABC12341',2700, 'ชำระแล้ว','เงินสด'); select \*

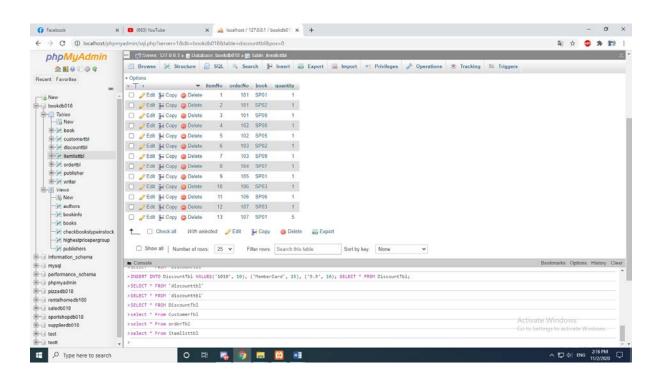

### From orderTbl;

#### 2.11 INSERT INTO itemlisttbl

```
VALUES(1,101,'SP01',1),
(2,101,'SP02',1),
(3,101,'SP09',1),
(4,102,'SP08',1),
(5,102,'SP05',1),
(6,103,'SP02',1),
(7,103,'SP09',1),
(8,104,'SP07',1),
(9,105,'SP01',1),
(10,106,'SP03',1),
(11,106,'SP06',1),
(12,107,'SP03',1),
(13,107,'SP01',5);
select *
```

From itemlisttbl;

## 3 เขียนคำสั่ง SQL ข้อมูลดังต่อไปนี้

| orderNo | orderDate  | custID   | book | bName                          | quantity | price | totalPricePerItem |
|---------|------------|----------|------|--------------------------------|----------|-------|-------------------|
| 101     | 2020-09-09 | ABC12341 | SP01 | The Secret                     | 1        | 460   | 460               |
| 101     | 2020-09-09 | ABC12341 | SP02 | The Power                      | 1        | 615   | 615               |
| 101     | 2020-09-09 | ABC12341 | SP09 | You can work your own miracles | 1        | 184   | 184               |
| 102     | 2020-09-09 | ABC12342 | SP08 | Data-driven marketing          | 1        | 345   | 345               |
| 102     | 2020-09-09 | ABC12342 | SP05 | Body Intelligence              | 1        | 560   | 560               |
| 103     | 2020-09-05 | ABC12343 | SP02 | The Power                      | 1        | 615   | 615               |
| 103     | 2020-09-05 | ABC12343 | SP09 | You can work your own miracles | 1        | 184   | 184               |
| 104     | 2020-09-15 | ABC12344 | SP07 | เพราะเป็นวัยรุ่นจึงเจ็บปวด     | 1        | 199   | 199               |
| 105     | 2020-09-15 | ABC12345 | SP01 | The Secret                     | 1        | 460   | 460               |
| 106     | 2020-10-01 | ABC12345 | SP03 | The Magic                      | 1        | 400   | 400               |
| 106     | 2020-10-01 | ABC12345 | SP06 | Can I have your attention      | 1        | 525   | 525               |
| 107     | 2020-10-02 | ABC12341 | SP03 | The Magic                      | 1        | 400   | 400               |
| 107     | 2020-10-02 | ABC12341 | SP01 | The Secret                     | 5        | 460   | 2300              |

SELECT o.orderNo, o.orderDate, o.custID, b.bookNo, b.bName, i.quantity, b.price, SUM(i.quantity\*b.price) AS totalPricePerItem
FROM ordertbl o

INNER JOIN itemlistibl i ON i.orderNo = o.orderNo

INNER JOIN book b ON b.bookNo = i.book

GROUP by o.orderNo, b.bookNo

### 4 เขียนคำสั่ง SQL เพื่อแสดงข้อมูลดังต่อไปนี้

| book | bName                          | bookType     | Amount |
|------|--------------------------------|--------------|--------|
| SP01 | The Secret                     | Spirituality | 7      |
| SP03 | The Magic                      | Spirituality | 2      |
| SP02 | The Power                      | Spirituality | 2      |
| SP09 | You can work your own miracles | Spirituality | 2      |

SELECT b.bookNo, b.bName, b.bookType, SUM(i.quantity) AS Amount

FROM book b

INNER JOIN itemlisttbl i ON b.bookNo = i.book

WHERE b.bookType = 'Spirituality'

GROUP BY b.bookNo

## 5 เขียนคำสั่ง SQL เพื่อแสดงข้อมูลดังต่อไปนี้

| paymentType | Income  |
|-------------|---------|
| เงินสด      | 4095    |
| เครดิต      | 2826.25 |

SELECT paymentType, SUM(TotalPrice) AS Income

FROM ordertbl

GROUP BY paymentType

## 6 เขียนคำสั่ง SQL เพื่อแสดงข้อมูลดังต่อไปนี้

| book 🔺 2 | bName             | book | bName                          |
|----------|-------------------|------|--------------------------------|
| SP01     | The Secret        | SP02 | The Power                      |
| SP01     | The Secret        | SP03 | The Magic                      |
| SP01     | The Secret        | SP09 | You can work your own miracles |
| SP02     | The Power         | SP09 | You can work your own miracles |
| SP03     | The Magic         | SP06 | Can I have your attention      |
| SP05     | Body Intelligence | SP08 | Data-driven marketing          |

SELECT i1.book, b1.bName, i2.book, b2.bName

FROM itemlisttbl i1

INNER JOIN itemlisttbl i2 ON i1.itemNo <> i2.itemNo AND i1.orderNo = i2.orderNo

INNER JOIN book b1 ON i1.book = b1.bookNo

INNER JOIN book b2 ON i2.book = b2.bookNo

WHERE i1.orderNo = i2.orderNo

GROUP BY i1.orderNo

ORDER BY i1.book ASC

# 7 เขียนคำสั่ง SQL เพื่อแสดงข้อมูลดังต่อไปนี้

| fName 🔺 1 | IName | bName                          | TopSale |
|-----------|-------|--------------------------------|---------|
| Rhonda    | Byrne | The Secret                     | 7       |
| Rhonda    | Byrne | The Magic                      | 2       |
| Rhonda    | Byrne | The Power                      | 2       |
| นโปเลียน  | ฮิลล์ | You can work your own miracles | 2       |

SELECT w.fName, w.lName, b.bName, SUM(i.quantity) AS TopSale

FROM writer w

INNER JOIN book b ON w.writerID = b.writerID

INNER JOIN itemlisttbl i ON i.book = b.bookNo

GROUP BY b.bName

ORDER BY TopSale DESC

LIMIT 4
